

CleanSpace™

wearable protective masks

CLEANSPACE™ POWERED RESPIRATOR WITH HALF MASK

WORK EFFORTLESSLY AND COMFORTABLY WITH P2/P3 & TM3 PROTECTION

Successfully deployed in open cut mining and quarry operations.

Environment:

- Hot
- Harsh working conditions
- High concentrations of dust
- Large and remote teams

Tasks:

- Physically demanding work
- Tight spaces
- Moving around large equipment
- High mobility and portability

Equipment requirements

- High protection
- Comfort and airflow over long periods
- Compatibility with standard PPE
- Easy to use and train
- Low inventory and few parts

Miners and quarry operators preferred CleanSpace respirators to any other mask they had worn.

OPERATORS' RESPONSES

- Light weight unit (500g). Easy to wear throughout the 10 - 12 hour shift
- Comfortable. Good airflow on the face; and combats the heat.
- No waist mounted battery pack or hoses helped with portability and movement around equipment
- Good filter life and filter alarms guaranteed efficient filter use
- Simple and quick to put on and operate
- Durable and tough enough to withstand the workplace conditions;
- Few parts. Low inventory

A REVOLUTION IN RESPIRATORY SAFETY. Now the choice of personal respiratory protection in over 20 countries.
