

CleanSpace™

wearable protective masks

CLEANSPACE™ POWER RESPIRATOR AND FULL FACE MASK

WORK EFFORTLESSLY AND COMFORTABLY WITH P3/TM3 PROTECTION

Successfully deployed in laboratory and health care operations.

Environment:

- Warm
- Biological and infectious agents
- High concentrations of fine dust
- High level of visibility required

Tasks:

- Bending and lifting
- Moving around equipment
- High mobility and portability
- Communication and quiet operation

Equipment requirements

- High protection
- Comfort over long periods
- Donning and doffing easily and safely
- Easy to use and train
- Cleaning and disinfection essential

Healthcare staff preferred CleanSpace to any other mask they had worn.

HEALTH CARE STAFF RESPONSES

- Light weight unit. Easy to wear throughout the 10 - 12 hour shift
- Fresh airflow on the face; No breathing resistance
- Comfortable. Eliminates heat in the mask
- No waist mounted battery pack; No hoses to restrict movement
- Good battery time
- Simple and quick to put on and operate
- Easy to clean and disinfect
- Confirmed protection after portacount testing

A REVOLUTION IN RESPIRATORY SAFETY. Now the choice of personal respiratory protection in over 20 countries.
