- Maintenance and cleaning in wastewater sector
- Grain and food handling
- High dust environments; mining and quarry.

CleanSpace ULTRA features:

- NIOSH approved
- IP Rated 66 (Water Tolerant)
- High protection P3/TM3 99.97%
- APF 50 half mask & APF 1000 full mask
- Lightweight
- No hoses, belts or waist-mounted battery packs
- Easy one button operation
- Up to 8hrs run time
- Smart AirSensit™ Technology.

CleanSpace Nuisance Odor Filter

CleanSpace Nuisance Odor Filter is a HEPA filter cartridge with a deep layer of activated carbon suitable for nuisance level exposure (Not exceeding OSHA PEL) to Organic Vapours (OV), Inorganic, Acid Gas (AG) and Ammonia. When compared to disposable masks, the CleanSpace Nuisance Odor Filter offers significant cost savings with long wear capabilities. It delivers fresh, clean airflow for less disruption during a shift, creates less waste and is better for the environment. Nuisance odor is also compatible to use with half face masks.

Available in half face or full* face masks.
