All dates are subject to change. Any changes will be advised via a market announcement.

Authorised by Elizabeth Harvey, Company Secretary.

ABOUT CLEANSPACE

CleanSpace is a Sydney-based designer and manufacturer of respiratory protection solutions for healthcare and industrial applications, founded by a team of biomedical engineers with experience in respiratory medicine devices. CleanSpace is passionate about continually improving health outcomes, workplace safety and standards of care. In the last 20 years, technology has driven unprecedented advances in medical equipment and transformed people's health. We have brought this to personal respiratory protection. The Company continues to invest in research and development programs resulting in differentiated design and approved products that provide compelling employer and user benefits, namely, higher protection with improved compliance and productivity. CleanSpace Respirators are a true game changer, changing the way people on the front lines think about respiratory protection.
