

CleanSpace™

wearable protective masks

CLEANSPACE™ POWERED RESPIRATOR WITH HALF MASK

WORK EFFORTLESSLY AND COMFORTABLY WITH P2/P3 & TM3 PROTECTION

Successfully deployed in manufacturing and welding operations.

Environment:

- Hot
- High concentrations of fumes
- Restricted access
- Large teams

Tasks:

- Tight fitting spaces
- Moving around large equipment
- High mobility and portability
- Physically demanding work

Equipment requirements

- High protection
- Comfort over long periods
- Harsh working conditions
- Compatibility with standard welding visors
- Easy to use and train
- Few parts and ready to go

Welders preferred CleanSpace respirators to any other mask they had worn.

WELDERS' RESPONSES

- Light weight unit (500g). Easy to wear either for a 5 minute job or a 10 - 12 hour shift
- Fresh airflow on the face; No breathing resistance Combat the heat
- Durable and tough
- No waist mounted battery pack or hoses helped with portability and movement around equipment
- Good filter life and filter alarms guaranteed efficient filter use
- Few parts. Low inventory
- Simple and quick to put on and operate

A REVOLUTION IN RESPIRATORY SAFETY. Now the choice of personal respiratory protection in over 20 countries.
